Subject: The details of the haulier on Hungarian ECMT licences in 2017

Dear Ms Shatberashvili,

I would like to inform the ITF Secretariat and the ECMT member countries that Hungarian transport autority has changed the method for indicating the details of the haulier on the ECMT licences and logbooks.

From this year the Hungarian transport authority places stickers on the ECMT licence and the logbook to indicate the haulier's name and full address during the issuing process. In the attachment of this letter you can find specimen licence (figure 1.) and logbook (figure 2.) which prepared with the new method.

I would like to ask you to approve our new method of preparing the licences and logbooks. I kindly ask you to inform about this the control authorities of the member coutries to accept the licences and logbooks prepared according to this letter.

I would like also to mention that some haulier have stamped the licence and the logbok additionally with the company stamp near to the sticker.

I hope that the above mentioned information is enough to avoid complications related to the stickers during roadside checks.
