The Ministry of Infrastructure of the Republic of Serbia presents its compliments to the International Transport Forum, The Group on Road Transport and herewith uses the opportunity to address the following.

According to the new arrangement concerning more strict control of documents related to international road transport operations, Serbian permits used by foreign hauliers have to be duly filled-in (name and address of the haulier, registration plate of the vehicle, date) and stamped by Serbian customs authorities while entering/exiting border crossings of the Republic of Serbia or stamped by customs authorities at internal customs stations after the customs procedure is performed at internal customs stations as of 01.04.2009. Otherwise the permit will be considered invalid.
