Dear Ms. Skritskaya, dear Ms. Poggi,

during checks by the Russian traffic police, it was noticed that the ECMT logbooks from Germany do not contain a signature, but only a stamp, contrary to the ITF User Guide from 2022. In order to avoid fines, I would ask you to inform all ECMT member states that the German logbooks have only been stamped and are valid even without a signature.

Yours sincerely, gez. Christian Hoffmann Christian Hoffmann Präsident
