ABOUT THE INTERNATIONAL TRANSPORT FORUM**Who we are**

The International Transport Forum is an intergovernmental organisation with 54 member countries. It acts as think tank for transport policy and organises the Annual Summit of transport ministers. ITF is the only global body that covers all transport modes.

What we do

ITF works for transport policies that improve peoples' lives. Our mission is to foster a deeper understanding of the role of transport in economic growth, environmental sustainability and social inclusion and to raise the public profile of transport policy.

How we do it

ITF organises global dialogue for better transport. We act as a platform for discussion and pre-negotiation of policy issues across all transport modes. We analyse trends, share knowledge and promote exchange among transport decision-makers and civil society. ITF's Annual Summit is the world's largest gathering of transport ministers and the leading global platform for dialogue on transport policy.
