

Report Launch: Calles Más Seguras – Benchmarking Mundial de Seguridad Vial Urbana

Alexandre Santacreu, International Transport Forum
Isaac Vargas Gordillo, PTV Group

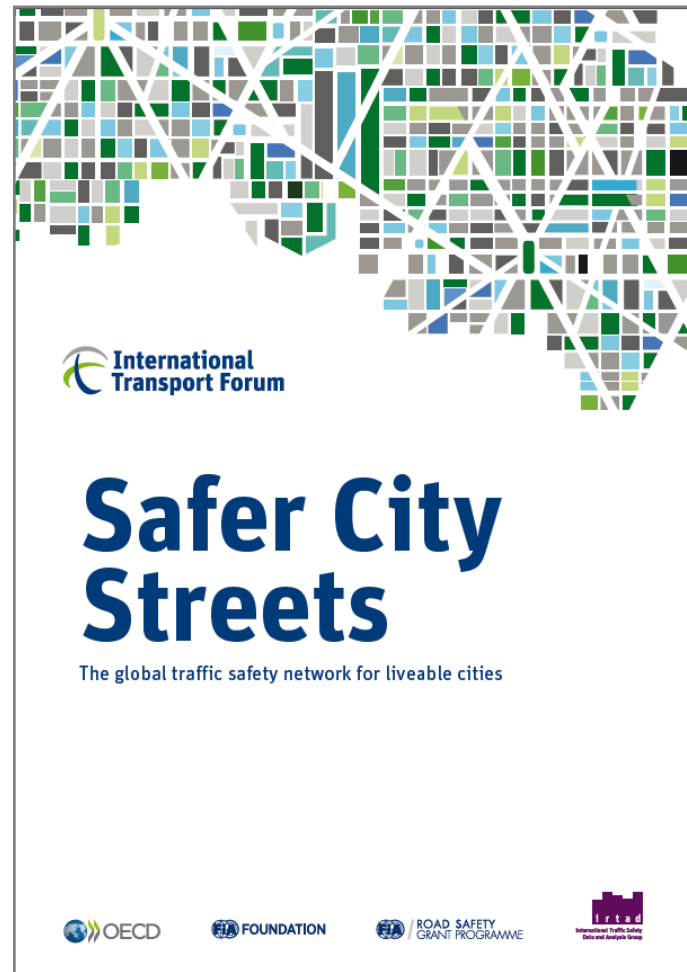

Buenos Aires, 10 April 2019

Safer City Streets

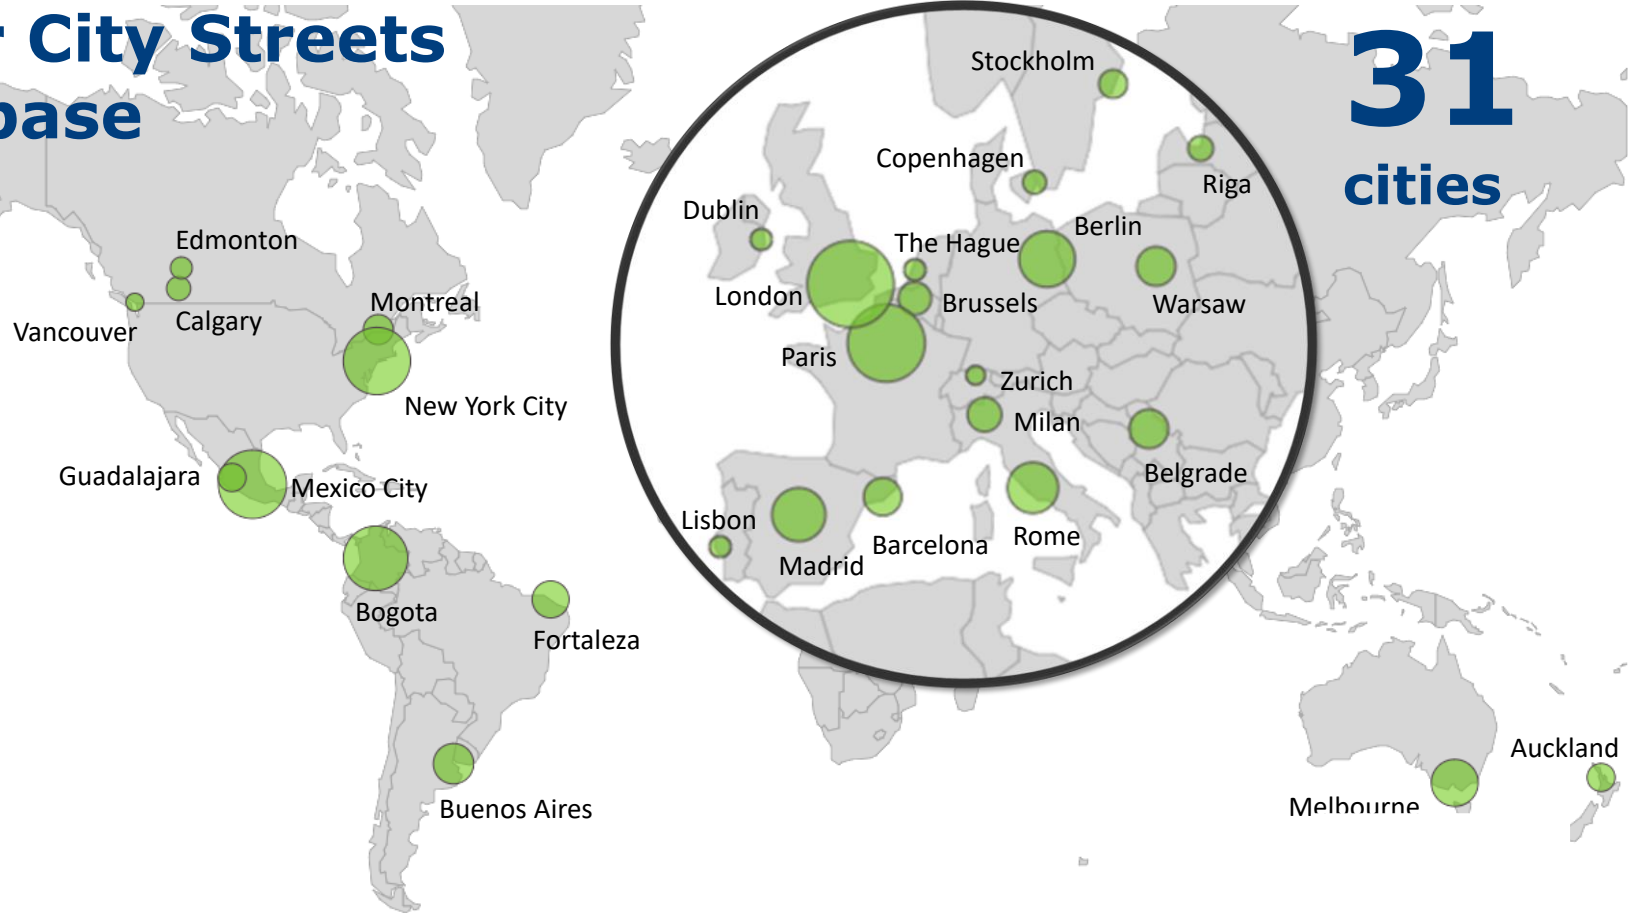

*the global traffic safety network
for liveable cities*

**Network
of experts**

**Global
database**

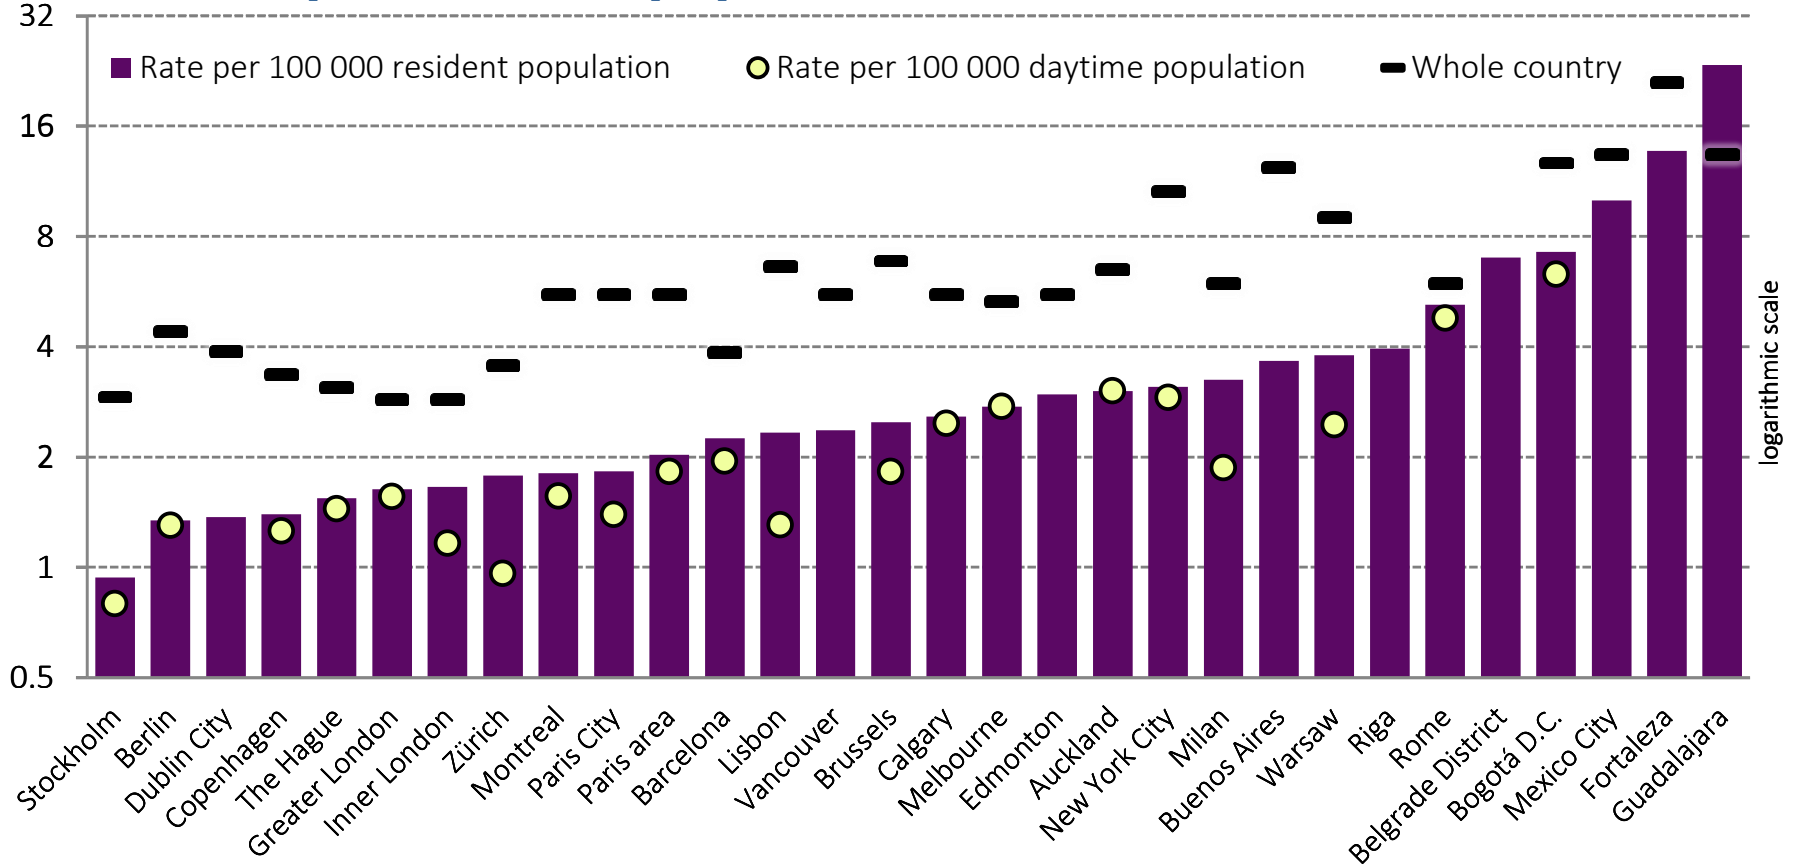

Safer City Streets database

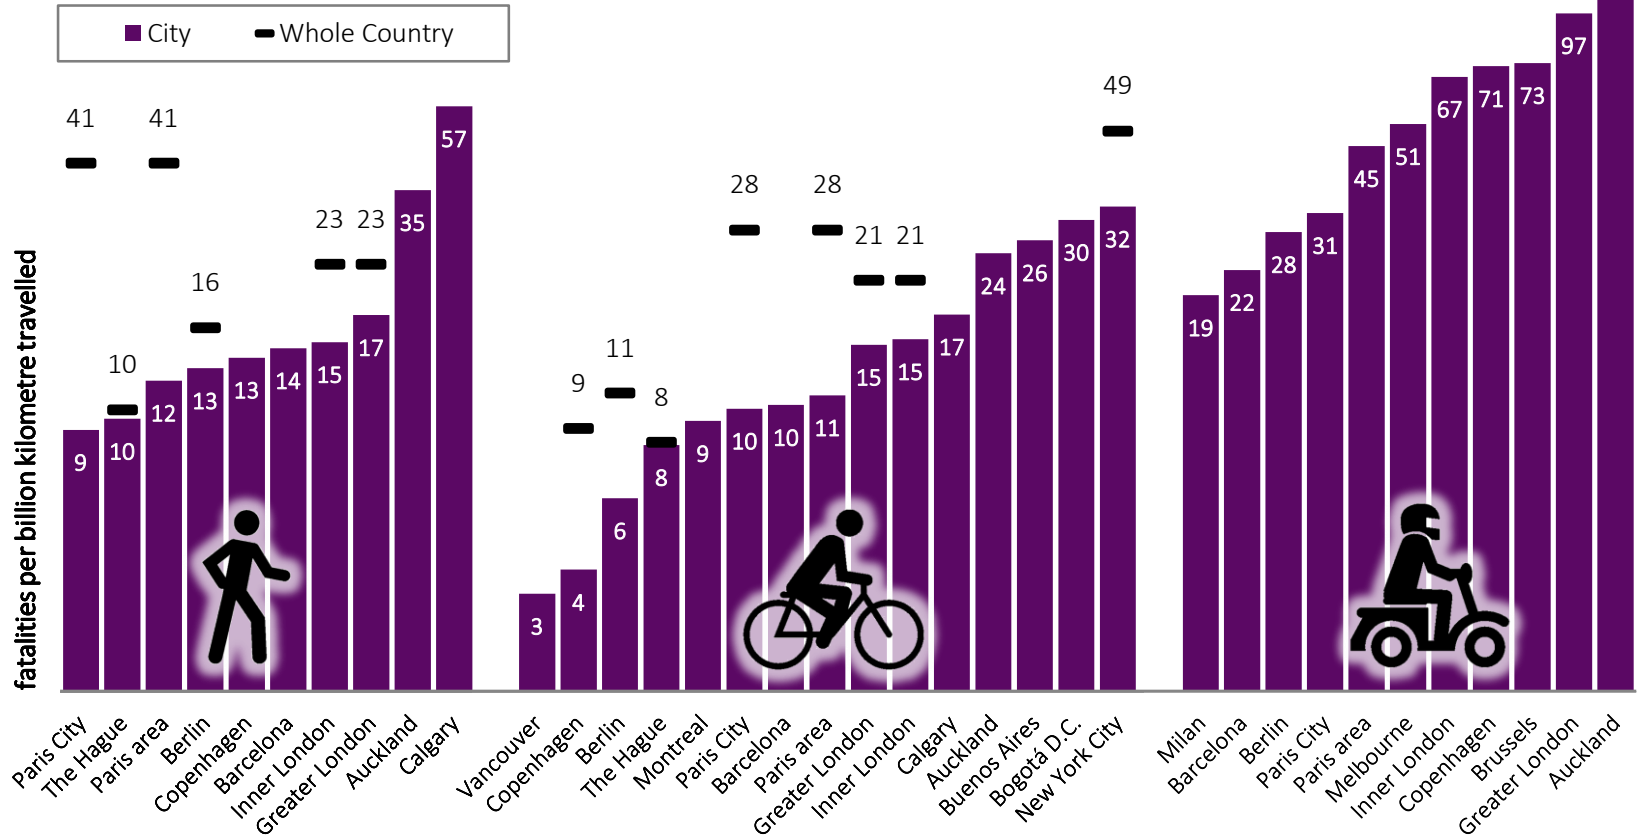

31
cities

Fatalities per 100 000 population, 2011-2015

Risk of fatality per unit distance travelled, 2011-2015

Our recommendations

- Set ambitious targets on fatal and serious injuries
- Focus on VRUs and develop meaningful VRU safety indicators
- Collect robust and comparable serious injury data
- Consider safety as a key to mode shift and vice versa

Thank you
