Restrictions

On 22 March 2020, the Greek Prime Minister announced that Greece will impose a national lockdown as of 23 March 2020, 06:00.

Passenger Transport:

- The movement of Greek citizens is heavily restricted within Greek territory. Special written permission is required under certain circumstances. For people going to/from their place of work, an attestation form from their employer is required (in Greek and English).
- Foreign citizens are not allowed to enter Greece.
- Greek citizens returning to Greece from abroad must self-isolate at home for 14 days.
- Most international flights to/from Greek airports have been temporarily cancelled.

Goods Transport:

- All borders are open for international transport operations.
- In some cases a Locator Form may be required by port authorities when entering Greece. Truck drivers will be given the form and asked to complete and sign it. The form requires personal and family contact details (attached in English).
- Drivers must present an attestation form from their employer, as well as passport/ID, and the CMR, in order to prove transport activity while on Greek territory.
- At the Customs office of Evzoni (BCP Greece-North Macedonia) truck movement restrictions are enforced every day from 22:00-06:00. Trucks
carrying ethyl alcohol, perishable goods and medical supplies are exempt from the provision.

On 2 April, the Greek Government published a new Ministerial Decree on the quarantine routine that people entering Greece from abroad must follow. Art. 2 of the decree sets out specific provisions for truck drivers, which are the following:

Workers of all nationalities engaged in international transport operations (land, air, maritime) must, upon entering Greece and without any delay, either transit through the country or reach their final destination within the country. After having reached the final destination in Greece, drivers must commence a temporary isolation period of 14 days. Trucks drivers travelling from Italy to Greece by ship are requested to fill in the following form.

Derogations to this rule apply in the following cases:

- When there is a need to start a new international transport operation (e.g. bilateral transport). In this case, mandatory quarantine can be lifted at any time, even the day after it started.
- When there is a need to make a national transport operation (within Greek territory). In this case, the driver must spend at least 7 days in isolation, starting from the day he entered the country. Because of the mandatory week spent in isolation, cabotage operations will not be possible.

The measure applies from 2 April up to 20 April.

In case of violation a fine of EUR 5.000 is imposed.
