

AGENDA

Decarbonising Transport in Emerging Economies

VIRTUAL KICK-OFF IN INDIA

24th June 2020

13:30 – 15:20 CET/ 17:00 – 18:50 IST

■ DECARBONISING TRANSPORT INITIATIVE (DTi)

The [Decarbonising Transport initiative \(DTi\)](#) of the [International Transport Forum](#) (ITF) helps governments and industry to translate climate ambitions into actions. It provides tools for decision makers to select CO₂ mitigation measures that deliver on their commitments. Specifically, it:

- Provides targeted analytical assistance for countries and partners to identify climate actions that work,
- Gathers and shares evidence for best practices that will accelerate the transition to carbon-neutral mobility,
- Shapes the climate change debate by building a global policy dialogue and by bringing the transport perspective to the broader climate change discussions.

■ DECARBONISING TRANSPORT IN EMERGING ECONOMIES (DTEE)

As part of the DTi, the Decarbonising Transport in Emerging Economies (DTEE) project aims to help national governments and other stakeholders to identify transport measures and establish pathways to reduce transport CO₂ emissions and meet their climate goals and NDCs.

The project focuses on four ITF member countries: Argentina, Morocco, India and Azerbaijan.

The ITF is supporting their carbon dioxide (CO₂) emissions reduction ambitions by designing a common assessment framework for transport emissions. The framework will cover several transport sectors and modes and will be tailored to each case. This includes the development of modelling tools and policy scenarios in close co-ordination with each of the countries' national government agencies, other local decision makers, academia, experts and civil society organisations. Capacity building will be fostered through activities including stakeholder workshops, training, policy briefs and mitigation action plans to help improve future transport research and policy development beyond the project duration.

This project will be implemented by the ITF in collaboration with The Wuppertal Institute (WI).

■ VIRTUAL KICK-OFF MEETING

The objectives of the meeting are to:

- Formally launch the DTEE project in India and inform the relevant stakeholders about project objectives and planned activities,
- Gather input from participants regarding current and future transport challenges in India, and how they may relate to transport CO₂ reduction ambitions.

Discussions will serve as inputs to shaping the project more specifically to India's needs and circumstances.

■ AGENDA

Launching of the Decarbonising Transport in Emerging Economies (DTEE) project in India

24th June, 13:30 – 15:20 CET/ 17:00 – 18:50 IST

Connection	10 mins
Introduction & Welcome	5 mins
Ms. Vatsalya Sohu, Research Officer, International Transport Forum	
Mr. Siddharth Sinha, Young Professional, NITI Aayog	
Opening Speech	10 mins
Mr. Young Tae Kim, Secretary-General, International Transport Forum	
Keynote Address	10 mins
Mr. Amitabh Kant, CEO, NITI Aayog	
Key Stakeholders Address	10 mins
<ul style="list-style-type: none">▪ Ministry of Housing & Urban Affairs (5 mins) Mr. D.S. Mishra, Secretary, Ministry of Housing & Urban Affairs▪ Ministry of Road Transport & Highways (5 mins) Mr. Giridhar Aramane, Secretary, Ministry of Road Transport & Highways	
DTEE Project Presentation	30 mins
<ul style="list-style-type: none">▪ Decarbonising Transport in Emerging Economies – project presentation (15 mins) Mr. Pierpaolo Cazzola, Advisor - Energy, Technology and Environmental Sustainability, International Transport Forum▪ Presentation by The Wuppertal Institut (WI) (15 mins) Mr. Oliver Lah, Head of Research Unit Mobility and International Cooperation, The Wuppertal Institut Mr. Santhosh Kodukula, Project Co-ordinator, Energy, Transport and Climate Policy, The Wuppertal Institut	
Discussion and Q&A	20 mins
Moderated by ITF	
Closing Remarks and Way Forward	10 mins
ITF, WI and NITI Aayog
