

# **3<sup>rd</sup> ITF Statistical Meeting 17-18 March 2016- PARIS**

6.3- Common Questionnaire

# Common Questionnaire

- Common to EUROSTAT/ UNECE/ ITF
- Huge questionnaire (700 variables )
- Available on the WEB
- Important burden for member States
- Had a streamline exercise
- Also added new variables (high speed rail, alternative fuel vehicles ...)
- We are planning to skin it again, that will take time

## ITF 'light' version

- We will produce a light version of the Common Questionnaire
- Test it with non-european countries
- Present results to the EUROSTAT/ UNECE/ ITF group
- Maybe the longer version is to be collected every other year.
- Hope to improve response rates, data quality, metadata

# Next Steps

- Need to solve some data codification with Eurostat
- New consultant at Eurostat
- Hope to have the 'light' version ready by this fall (not on Web)

# Thank you
