

	<p>and one village in Carinthia)</p> <p>Prohibition of major events (outdoor more than 500 people, indoor more than 100) until 3 April;</p> <p>Universities and 2<sup>nd</sup> grade schools (from age 14) close and switch to online courses where possible until 3 April</p> <p>Regular classes at primary schools and 1<sup>st</sup> grade schools (age 6 – 14) will be suspended, but day care is still possible for children whose parents cannot attend to their children themselves in order to avoid day care by grandparents</p> <p>Closing of shops for at least one week with the exemption of essential care, such as supermarkets, pharmacies, drug stores, banks, post offices, animal food.</p> <p>Restricted opening hours for bars, cafés and restaurants for at least one week</p> <p>Visitors ban for hospitals and nursing homes with the exemption of child care units and palliative care units</p>	<p>16 March 2020- 3 April 2020</p> <p>18 March 2020- 3 April 2020</p> <p>16 March 2020</p> <p>16 March 2020 (15:00)</p>	
<p><b>Belgium</b></p>	<p>In close contact with WHO and EU</p> <p>Health authorities continuously assessing the risks</p> <p>Coordination: Ministry of Public Health supported by the National Crisis Centre, revised guidelines for schools and private sector</p> <p>Federal emergency phase announced. Federal Coordination Committee is closely monitoring the situation.</p> <p>New restrictions for events (cultural, sport), schools, hospitals, companies, shops, ...</p> <p>No special, restrictive measures at the border for the time being.</p>	<p>14 March 2020</p>	

<p><b>Bulgaria</b></p>	<p>Installation of national Headquarters for coordination measures with relevant authorities</p> <p>Identified passengers from risk areas: health inspector is informed and temperature screening with thermal cameras is performed</p> <p>At Terminal 2 of Sofia' Airport, passengers arriving from Italy are being examined by the medical staff of the BCP with mobile devices, detecting temperature levels. At terminal 1 of the same BCP, a specially designated corridor for such passengers is in use.</p> <p>People arriving at BCPs are handed brochures with information on COVID-19 and the necessary prevention measures translated in 10 languages.</p> <p>On land BCPs health inspectors check incoming persons with mobile temperature measurement devices. Thermal cameras are being tested and implemented on these BCPs</p>		
<p><b>Croatia</b></p>	<p>Personnel of sanitary inspections at the main BCPs has been increased.</p> <p>All stakeholders are kept informed on a regular basis.</p> <p><u>During border checks:</u> Border police officers have to identify which passengers were in the last 14 days in affected areas - Division of two categories according to the level of risk:</p> <p>Category 1: Chinese province of Hubei, including the city of Wuhan, Italy, Heinsberg (DE), South Korean city of Daegu and Cheongdo province, Iran.</p> <p>Upon entering HR, foreign citizens are required to undergo quarantine for 14 days. Travelers will be escorted to the organized quarantine they will be staying. Otherwise refusal of entry into HR. They will bear the costs of quarantine themselves.</p> <p>Croatian citizens will be obliged, under the decision of the Border Sanitary Inspector, to be quarantine/self-insulated at home for a period of 14 days after leaving the area listed in Category 1.</p>	<p>10 March 2020</p>	

If they live in a household with a large number of occupants and they cannot self-quarantine, or any other reason that denies them the possibility to self-isolate, they will also be offered to go to an organized quarantine like the foreign citizens.

If any person in the 14 day period develops symptoms of COVID19, he or she will be hospitalized regardless of nationality and in healthcare facilities in HR

Category 2: China (except the area already covered by category 1 of measures), South Korea (except the area already covered by category 1 of measures), Hong Kong, Japan, Singapore

Healthy persons entering Croatia are subject to home quarantine/self-isolation for 14 days.

The conduction of obligatory quarantine and self-isolation is overseen by the Ministry of interior. Persons not complying with the obligatory measures are subjected to sanction measures in accordance with the Croatian Law

Transit: passengers from category 2, the border police officer will ask of any signs of illness. Passenger will provide the border police officer at border check with contact information and information about the estimated departure time from HR and the BCP at which they plan to leave. The border police will check if such travelers have left HR. This rule can only be applied if neighboring countries allows entry to their countries.

#### Transport and Transit of Goods via Trucks

International truck traffic with HR as the final point or point of departure: drivers are not allowed to leave the cabin during the voyage through HR. Upon the arrival at the point of destination, they have to be quarantined between journeys. The cargo companies shall organize quarantine facilities for their drivers.

International transit road traffic through HR (trucks or passenger cars), and departing the same day of entering, adhere to the following rules: border police will check if they have any symptoms of COVID-19 and if they are symptom free they will be able to proceed. However, the drivers must provide the border police with their contact information and the expected time of departure from HR (ETD) as well as the planned border crossing

	<p>(BC)</p> <p><u>Restrictions to public life</u></p> <p>Any public gathering with more than 100 people is not allowed. Smaller gatherings can so far proceed provided hygienic and sanitary standards are met.</p> <p>Bars, restaurants, pubs and gyms remain open so far, although citizens are advised to reduce their attendance, except in the area of Istria where all such facilities are closed</p> <p>Public transportation remains open</p> <p>School classes will be suspended for two weeks in primary and secondary schools. Primary school students from grades 1 through 4 will attend classes through special broadcasts on Croatian Radio Television. The grades 5-8 and secondary schools will have online classes, with additional back-up by TV broadcast</p> <p>Universities, colleges and kindergartens will be also suspended for two weeks. Schools and kindergartens shall remain open for those children whose parents are unable to look after them during working hours.</p> <p>HR Government has adopted extraordinary measures to control market prices for 28 items, including flour, eggs, sugar, cooking oil, fresh meat, fish, medicine and sanitary products. This decision covers all economic subjects registered in Croatia. Minister of economy, entrepreneurship and crafts is authorized to limit the export of these products in the case of shortages. This decision remains valid until further notice.</p>	<p>16 March 2020</p> <p>16 March 2020</p>	
<p><b>Cyprus</b></p>	<p>Passengers from China, Japan, Korea, Italy and Iran are requested to fill in a questionnaire and are screened on temperature</p> <p>Preventive measures: schools closed, any public event postponed</p> <p>For 15 days (until further notice), entry to Cyprus is forbidden unless the person falls into the following categories:</p>	<p>15 March 2020</p>	

- Cypriot citizens/nationals
- Legal residents of the Republic of Cyprus
- EU or TCNs who work in the Republic of Cyprus
- Nationals of countries that are in a designated diplomatic service or mission under bilateral or international conventions.
- Individual cases of EU citizens or third country nationals for unavoidable professional obligations provided that the competent Ministry has obtained the relevant prior authorization.
- EU or third country nationals attending educational institutions in the Republic of Cyprus.

***Entry will only be granted to those who, upon their arrival, submit a medical certificate that they have been tested [negative?] for coronavirus by certified medical centers. This certificate should be issued no more than 4 days before arrival.***

***Those who fulfil these conditions will be placed under a 14-day compulsory quarantine at accommodation facilities designated by the Republic of Cyprus.***

***Cypriot students who opt to stay in their places of study abroad (poss. in view of upcoming Easter holidays), will be granted a EUR 750 allowance.***

***This decision also applies to those who use the crossing points along the Green Line, except for purely humanitarian reasons and following approval by the Minister of Interior.***

As regards crossing points along the Green Line, only persons belonging to the following categories shall be allowed to cross:

- Cypriot citizens: Greek Cypriots and Turkish Cypriots.
- Legal residents of the controlled areas of RoC.

16 March 2020  
(18:00)- 30 April  
2020

	<p>- Nationals of countries that are in a designated diplomatic service or mission under bilateral or international conventions.</p> <p><b>Other measures decided include:</b></p> <p><b>1) Allocating EUR 100 million for reinforcing the public health sector.</b></p> <p><b>2) Suspending the operations of certain businesses of the private sector, while imposing specific measures and conditions for those not ordered to close down (detailed decision is published <a href="https://www.pio.gov.cy/">https://www.pio.gov.cy/</a>).Hotels are also ordered to close within the next 6 days until 30/4/20.</b></p> <p><b>3) Adopting a comprehensive exceptional financial Support Programme employees and businesses of EUR 700 million (equal to 3% of the GDP).</b></p> <p><b>4) With regards to the public sector, the competent Ministers have been authorised to proceed to the structuring of an emergency operations plan. Further specific instructions are expected.</b></p> <p><b>5) Apart from limits of gatherings of no more than 75 people, also applying to the church, further measures were announced later on by the Archbishop of Cyprus in relation to church attendance.</b></p> <p><b>6) suspension of classes in public and private educational institutions of the country is extended until 10 April (followed by two weeks of Easter holidays)</b></p>	<p>16 March 2020 (18:00)- 30 April 2020</p>	
<p><b>Czech Republic</b></p>	<p>All flights from China, Northern Italy (Milan, Venice, Bologna and Bergamo), South Korea suspended</p> <p>Czech Police +Customs Administration + Fire Rescue Corps: Preventive actions (body temperature measurement and information leaflets for those coming back from Italy) through random checks at 10 border crossing points with Germany, Austria and Slovakia (Rozvadov, Folmava, Železná Ruda, Dolní Dvořiště, Strážný, Mikulov, Hatě, Břeclav, Cínovec, Pomezí)</p> <p>All CZ citizens + all foreigners (including EU citizens) who are temporarily or</p>	<p>9 March 2020 (07:00)</p> <p>7 March 2020</p>	

	<p>permanently resident in CZ or persons who work in CZ and have returned from their stay in Italy after 7 March 7 have to report to their general practitioner immediately, by phone or otherwise without personal contact. The general practitioners will order 14 days home quarantine. The measure does not apply to freight drivers, drivers and crews of transport medical services and pilots of transport aircraft</p> <p>All suspected infections will be handed over to regional public health authorities</p> <p>Tourists with symptoms: tourists obliged to endure the control of symptoms of infectious diseases after entering CZ. If signs of an infectious disease found, they are obliged to assist healthcare professionals in collection of samples. They are obliged to tolerate restrictions on the freedom of movement during the laboratory examination of the samples</p> <p>State of emergency for 30 days</p> <p>Introduction of internal border control:</p> <p>The measure concerns the land borders with DE and AT and the air borders:</p> <p>The internal borders with AT and DE can only be crossed at designated crossing points without any time limit. Persons, who demonstrably cross internal borders on a regular basis, in particular cross-border / commune workers, may also cross at other crossing points</p> <p>The above-mentioned obligation does not apply to selected categories of persons for whom the restriction on the crossing of internal borders would be disproportionate and in some cases would be contrary to the public interest. These include, for example, an integrated rescue system, people in the event of an unforeseen emergency, freight transport, etc.</p> <p>Additional measures on cross border mobility:</p> <p>Entry ban for all foreigners (incl. EU nationals) with the exception of those foreigners with temporary and residence permit in CZ</p>	<p>10 March 2020</p> <p>12 March 2020</p> <p>14 March 2020- 18 March 2020</p>	<p>X</p>
--	--	---	----------

<b>Denmark</b>	<p>Introduction of internal border controls at all internal borders.</p> <p>From today we strongly recommend that Danes refrain from all non-essential travels outside Denmark. We also advise Danes travelling abroad to return to Denmark in the coming days.</p> <p>Additional measures also involve travel restrictions and control of persons at Danish borders: Persons who do not live or work in DK or are not crossing the borders to deliver goods or services – or for other equally relevant purposes, will not be allowed entry.</p> <p>No controls of transports of goods: DK authorities are in contact with DK businesses and transporters to ensure a smooth continuation of the flows of goods.</p> <p>Passenger traffic to DK by air, train and ferries will be either fully or partially closed.</p>	14 March 2020- 13 April 2020	X
<b>Estonia</b>	<p>The border guard units (especially at air borders) continue to perform ordinary border checks activities. No specific targeted measures taken by authorities responsible for border control at the air, land and sea borders. However, there are planning activities performed for initiation of contingency plans at place, when situation so requires.</p> <p>The Health Board (the responsible authority for preparedness of situations concerning protection of public health) together with Port, Airport authorities have placed in Tallinn Harbour terminals and Tallinn Airport a medical screening (body temperature measurement) equipment. The Health Board as a main responsible authority have deployed voluntary staff, who carries in the passenger terminals of Tallinn Harbour and Tallinn Airport preventive actions (providing information bulletins, body temperature measurement) aimed at reducing risk of COVID-19 spreading.</p> <p>In the frame of mutual assistance, the Police and Border Guard Board is supporting the activities of the Health Board. The activities are aimed at supporting preventive actions</p>	10 March 2020	

	<p>for reducing the risk of COVID-19 spreading.</p> <p>Assistance includes:</p> <ul style="list-style-type: none"> <li>- Distribution of information in car terminals of Tallinn Harbour, external land border crossing points (Narva-1, Koidula, Luhamaa), at the border between Estonia and Latvia (Valga, Ikla to passengers traveling by public/mass transport (coaches and buses)).</li> <li>- At the passenger`s request the body temperature measurement by handheld digital body temperature devices might be performed by the Police Officers in all locations at the border.</li> </ul> <p>Declaring state of emergency until 01.05.2020</p> <p>Closing of all education institutions (distance learning) except for the kindergartens. Research activities at the universities and research institutions will continue.</p> <p>Closing museums, cinemas, theaters, concerts. Conferences and sporting events will be banned. Libraries remain open</p> <p>Setting up a control of the passengers for symptoms and travel history at border points, ports, airports</p> <p>Banning visitors in hospitals, nursing homes and jails.</p> <p>Sale of tickets for cruises from and to Stockholm will be put on hold.</p>		
<p><b>Finland</b></p>	<p>Health authorities continuously assessing the general risk in Finland</p> <p>No additional measures at the border, but staff is informed about what to do with risk passengers, including awareness raising</p> <p>Negotiations with neighbouring third countries on handling risk passengers</p> <p>National continuity planning (regarding personnel and material) in process</p>		
	<p>At main entry points (e.g. Roissy airport), medical personnel is available to provide advice: they monitor the passenger`s temperature and help passengers with symptoms</p> <p>Border guards assist medical teams at the gates of the airports for flights from countries</p>		

	<p><i>to cross-border commuters until 17 March 2020 without proof that they have a job in another country. Thereafter, they should provide proof of such a job in order to be able to cross the border. Other unnecessary trips into and out of high-risk areas will no longer be permitted.</i></p> <p><i>In order to protect public health, persons suspected of infection with the coronavirus may be refused entry, on a case-by-case basis. To avoid the uncontrolled spread of the coronavirus, such persons would be transferred to the responsible authorities of the neighbouring country in an orderly manner.</i></p>		
<b>Greece</b>	<p>At airports: Chinese passengers screened upon entry and temperature checked Leaflets about virus and management of suspected and affected cases to police units.</p> <p>Airport: Passengers from Italian provinces of Veneto, Lombardy, Piedmont and Emilia-Romagna must undergo screening procedures when entering EL</p> <p>On islands: Migrants from Iran are separated and isolated and undergo medical screening; concerned migrants will be asked about their date of departure from their country of origin</p>		
<b>Hungary</b>	<p>Ambulance Services is permanently present at major land BCPs to screen passengers arriving from affected areas. Body thermometers are available at all border crossing points. Hand disinfectant gel (or tissue), disposable nitrile gloves and disposable surgical face masks are available for the officers.</p> <p>No more visa issuing to Iranian citizens.</p> <p>The Government declared nationwide state of danger.</p> <p>Immediately reintroduced border control (Article 28 of SBC) at the Hungarian-Austrian and Hungarian-Slovenian internal borders. Appointed places for border crossing: - at Austrian border section: Hegyeshalom, Sopron, Rábfüzes; and Fertőd, Kópháza, Kőszeg, Búcsú, Szentpéterfa - at Slovenian border section: Rédics, Tornyiszentmiklós; and Tornyiszentmiklós-Pince.</p>	<p>1 February 2020</p> <p>6 March 2020</p> <p>11 March 2020</p> <p>12 March 2020</p>	<b>X</b>

	During border control the entry of passengers (except Hungarian citizens) arriving from Italy, China, Korea and Iran (countries with mayor coronavirus outbreaks) will be refused.	12 March 2020	
<b>Iceland</b>	Border guards get regular information how to react in case of a possible infection.		
<b>Ireland</b>	<p>Close cooperation with National Health Authority</p> <p>Precautionary procedures have been put in place for high risk passengers presenting at air borders in Ireland</p> <p>National Airlines (Aer Lingus &amp; Ryanair) have suspended flights to and from Italy. Passengers arriving from high risk areas displaying symptoms are isolated and medically assessed</p>		
<b>Italy</b>	<p>National state of emergency for 6 months.</p> <p>Request for facemasks under the Civil Protection Mechanism</p> <p>All flights from China, Hong Kong, Macau and Taiwan suspended. Before this date, all passengers arriving from those destinations were subject to medical screening.</p> <p>Medial screening (body temperature measurement) is performed to all passengers arriving to Italy. When infection suspected, passenger needs to notify to local health authorities his/her arrival to Italy and where he/she has been</p> <p>New governmental decree setting out additional measures: limited free movement, closed schools, no public gatherings</p> <p>Exit screening procedures at Rome, Milan and Linate airport (temperature screening and questionnaire about symptoms): Local staff decides if person can fly</p>	<p>27 February 2020</p> <p>31 January 2020</p> <p>5 February 2020</p> <p>10 March 2020</p>	

	<p><i>The Ministry of Infrastructures decided to limit the operational services in several airports only to emergency services so no international commercial flights are accepted</i></p> <p><i>Sardinia Region limited the transport of ferries to its territory, limited exceptions are allowed.</i></p>	<p>12 March 2020</p> <p>14 March 2020</p>	
<p><b>Latvia</b></p>	<p>Briefings for border guards on cases of possible infection and how to deal with infected passenger</p> <p>Border guards interview in-depth passengers regarding recent travel routes, as well as to check travel documents for stamps</p> <p>Riga Airport: electronic information banners and recommendation to passengers at all BCPs</p> <p>Special questionnaire to travellers</p> <p>State of emergency</p> <p>The Government has introduced several restrictions:</p> <p>On-site learning is terminated at all educational establishments</p> <p>In order to attend pre-school educational institutions: parents shall submit a written statement to the pre-school educational institution informing that the child and family have not visited any COVID-19 affected countries and have not been in contact with COVID-19 affected persons</p> <p>All public events, meetings, demonstrations are banned</p> <p>The state and local government institutions have been requested to ensure, as far as possible, the remote provision of on-site services</p> <p>14 day self-isolation applies to any person who has returned from the affected countries and territories</p>	<p>12 March 2020-14 April 2020</p>	

	<p>has offered their assistance in supply of PPE. Lithuania has provided the Embassy with information regarding our needs for PPE.</p> <p>Temporarily reintroduction of border control at all internal land-, sea-, and air borders</p>	<p>14 March 2020 (18:00) – 24 March 2020 (18:00)</p>	
<b>Luxembourg</b>	<p>No additional border measures</p> <p>Closures of all schools, universities and crèches</p> <p>Events in confined spaces with more than 100 people are prohibited</p> <p>Events in non-confined spaces with more than 500 people are prohibited</p> <p>Ban on all visits to hospitals and care homes</p>	<p>16 March 2020</p> <p>13 March 2020-31 March 2020</p>	
<b>Malta</b>	<p>Medical screening (body temperature measurement) to all passengers arriving to Malta, including at seaports: This measure has now also been extended to those travelling between Malta and the sister island of Gozo</p> <p>Case definition extended to countries with local transmission as risk countries</p> <p>Focus on communication strategy and prevention measures for the population</p> <p>All visitors entering hospitals are being screened thermally upon entry</p> <p>The ferry service between MT and Sicily has been operating for food and medicine only, and flights to and from IT grounded</p> <p>Flights were grounded to and from FR, ES, CH and DE and a mandatory quarantine of 14 days for people who have been in Italy, China (including Hong Kong), Singapore, Japan, Iran and South Korea, from 27 February 2020 onwards.</p> <p>The police are also monitoring the quarantine and a 1000€ fine has been introduced for those breaching the mandatory quarantine</p>	<p>24 February 2020</p> <p>10 March 2020</p> <p>11 March 2020</p>	

	<p>All schools (primary, secondary, post-secondary and tertiary) and childcare centers will be closed</p> <p>Elderly homes and prison will be closed for visitors, funerals will be held outdoors, public mass events have been suspended including church activities</p> <p>All sports activities suspended until 22 March 2020</p> <p>The mandatory 14-day quarantine will apply to travellers from all countries. Number of passengers on public transport will be restricted</p>	<p>13 March 2020- 20 March 2020</p> <p>14 March 2020</p>	
<b>The Netherlands</b>	<p>Regular border regime in place</p> <p>All incoming airplanes with passengers suspected of contamination will be diverted to a separate platform and screened when entering (pilot decides)</p>		
<b>Norway</b>	<p>Everyone who comes from outside the Nordic countries will be in quarantine for 14 days from their arrival in Norway, regardless of whether they have symptoms or not. This applies retroactively from 27th of February this year. This will also apply to travelers coming to Norway by transiting through the Nordic countries. Based upon careful considerations and close monitoring of the development of the situation, the period the measures are applied may be extended.</p>	<p>12 March 2020 (18:00) – 26 March 2020</p>	
<b>Poland</b>	<p>State of epidemiological threat</p> <p>Introduction of internal border controls at border with CZ, SK, DE, LT as well as at sea and air border crossing points:                      PL is suspending international air and rail services;                      Entry ban for foreigners</p> <p>All PL citizens (plus their spouses and children with foreign passports as well as foreigners with permanent/temporary residence or working permission) returning from abroad must undergo a two-week quarantine</p> <p>Ban on public gatherings of more than 50 persons</p>	<p>13 March 2020</p> <p>15 March 2020- 24 March 2020</p>	<b>X</b>

	<p>Only grocery stores, pharmacies, laundry facilities will still be open</p> <p>Restaurants, bars and cafes will only be able to operate as takeaways and delivery</p> <p>Classes in kindergartens, schools and universities are suspended</p> <p>Activities of cultural institutions are suspended</p>	<p>12 March 2020-25 March 2020</p> <p>12 March 2020-25 March 2020</p>	
<b>Portugal</b>	<p>A state of alert has been declared</p> <p>Suspension of all flights (commercial and private) to or from Italy, until 24 March.</p> <p>Cruise ship passengers are not allowed to land, unless reside in Portugal</p>	<p>13 March 2020</p> <p>11 March 2020</p> <p>13 March 2020</p>	
<b>Romania</b>	<p>Medical personnel present to screen passengers coming from risk areas.</p> <p>Information posters displayed and leaflets handed out at the BCPs</p> <p>Flights to IT suspended</p> <p>Passengers from risk areas: self-isolation</p>	<p>Until 23 March 2020</p>	
<b>Slovakia</b>	<p>At all international airports in Slovakia: each passenger undergoes medical examination</p> <p><u>Health checks at the internal border with Austria:</u> On random basis, sanitary staff will carry out health checks, controlling the body temperature or communicating with people who are coming from risk areas (Police officers will only assist in the stopping the cars – no checks on documents or persons)</p> <p>Information campaign linked with targeted checks of passenger motor vehicles, informing how to proceed in case of suspicion of coronavirus infection</p> <p>All public events (festivals, demonstrations, concerts) with have been cancelled.</p> <p>Slovakia has taken police and medical measures according Article 23 SBC at internal borders with HU, CZ and AT</p> <p>All international airports in Slovakia were closed, except cargo</p>	<p>28/02/2020 (18:00)</p> <p>28/02/2020-02/03/2020</p> <p>13 March 2020</p>	

	International railway passenger traffic at the aforementioned border sections will also be closed		
<b>Slovenia</b>	No landing permission for flights from: IT, China, South Korea and Iran Airports: medical checks, including temperature screening (operational protocol) No public gatherings with more than 5000 people	9 March 2020	
<b>Spain</b>	No targeted border check measures  All borders and Units received information on the Covid-19, both on what is known on the virus, its forms of transmission and visible symptoms, as well as on general measures of protection.  In case any symptoms are detected at BCPs: the relevant medical entities should be contacted immediately		
<b>Sweden</b>	All flight permits from Iranian air (6 flights per week) suspended due to insufficient information from the Iranian authorities how they deal with the Coronavirus		
<b>Switzerland</b>	Introduction of internal border control at border with IT:  The entry into CH from IT will be only permitted to Swiss citizens, persons with a residence permit in CH and persons who must travel to CH for professional reasons. Persons in a situation of absolute necessity may also enter from IT.  In order to make controls at the internal border to IT effective and at the same time as efficient as possible, a certain channelling to larger border crossing points is inevitable. For this reason, smaller border crossing points will stay closed.  All public events with more than 100 participants prohibited. Restaurants, bars and clubs must not have more than 50 people at the same time in their localities.  Schools and other educational institutions are not allowed to hold classes on site	13 March 2020, 12:00, until 22 March 2020, 11:59          Until 30 April 2020	X

	<p>Measures in asylum centres: Arriving asylum seekers undergo medical checks and suspected cases are being tested and isolated. The number of people per dormitory is being minimised and transfers between regions are avoided if possible.</p>	<p>Until 4 April 2020</p>	
--	---	---------------------------	--

EU Agency	Action	Date	Next steps
<p><b>Frontex</b></p>	<p>Advice provided to operational and non-operational staff (guidelines on quarantine measures, telework, missions, meetings, private travel)</p> <p>A dedicated officer in Frontex for questions on this issue</p> <p>A crisis group meets every second day to follow SANTE and ECDC guidelines</p>		
<p><b>EASO</b></p>	<p><i>From the onset of the outbreak, EASO has implemented a number of measures with a view to ensuring preparedness and adequate response for any eventuality in line with its duty and care towards its staff.</i></p> <p><i>Rresponse measures have been guided by the advice of the Maltese Authorities, the European Control and Disease Prevention and Control (ECDC), EU Institutions and Agencies and in addition for our Operational Offices in Italy, Cyprus and Greece also the instructions of responsible national authorities in those counties.</i></p> <p><i>From 28 February 2020 a number of precautionary measures for staff of the Agency: Issuance of four our subsequent Executive Director Decisions (of 28 February, 9 March, 11 March and 12 March 2020) in response to the rapidly evolving situation. According to them all missions</i></p>		

*were cancelled, all scheduled meetings, training sessions, and other activities being organized by EASO, irrespective of the location were suspended as a preventive measure until further notice. A Response Team ('COVID-19 Response Team') was established within the Agency to coordinate EASO's preventive measures and ensure follow-up to agreed actions. Furthermore, all staff members are duly informed of the latest developments and instructions by way of Daily Situational Updates that are sent directly by email individually to all staff. A dedicated space has been set up on the EASO intranet which includes the daily updates as well as relevant documentation, such as Executive Director Decisions relating to the COVID-19 situation.*

*Staff members, including newcomers, who have recently travelled to, transited through or travelled from high risk areas, either on official mission or personal visit, have been instructed to self-quarantine and request their line manager 'occasional teleworking' for a period of 14 consecutive days from the date of their travel out of the high risk areas. The conduct of face-to-face interviews and written tests of ongoing or planned recruitment procedures are subject to an individual assessment. The telework and self-quarantine at the request of their line manager "occasional teleworking" was first introduced for vulnerable groups.*

*As of 16 March 2020, the Executive Director Decision on teleworking will apply for all staff members performing non-critical tasks for a period of 14 consecutive days until further notice. The staff performing critical tasks will continue to work to assure the business continuance.*

	<p><i>To date, no reported cases of staff members who have tested positive to the virus. Closely monitoring of the situation</i></p>
