### Request for a minor change in the Finnish Multilateral Quota

Dear Ms Satberashvili

The Finnish Ministry of Transport and Communications has noticed an unpredictable growth in the demand for EURO III permits during the present year. We are very likely to run out of the EURO III permits before the end of 2011. As agreed, the actual quota for Finland for the present year is much larger than the reduced quota we originally received. The Ministry of Transport and Communications is requesting the International Transport Forum to implement a minor change in the framework of the Finnish quota. We propose that the revised distribution and number of permits would be as follows:

|                      | current situation |            | new situation 2011 |            |
