Subject: ECMT logbooks/Notification/Latvia

Dear Sophie,

Please find attached the letter of the Road Transport Administration of Latvia concerning the problem that due to printing paper defect in the annual ECMT licence logbooks issued to the Latvian hauliers there could be some green pages without copying effect. In such cases we have advised our hauliers to use a carbon paper.

We kindly ask you to disseminate this information to other Multilateral Quota Member countries and to put it on the International Transport Forum web-site for the needs of controlling authorities. We hope that controlling authorities will show their tolerance because it is some three pages per logbook without copying effect. For licences not yet used the logbooks have been replaced.

Best regards,

Indra Gromule
