DIRECTIVES

DIRECTIVE 2014/94/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 22 October 2014

on the deployment of alternative fuels infrastructure

(Text with EEA relevance)

DIRECTIVE 2014/94/EU, requires ports in Europe, to installed shore power as a priority no later than December 2025.

*.... Such shore-side electricity supply shall be installed as a priority in ports of the TEN-T Core Network, and in other ports, by 31 December 2025, unless there is no demand and the costs are disproportionate to the benefits, **including environmental benefits.***

.....Member States shall ensure that shore-side electricity supply installations for maritime transport, deployed or renewed as from 18 November 2017, comply with the IEC/ISO/IEEE 80005-1 standard...

IEC/ISO/IEEE 80005-1

INTERNATIONAL STANDARD

Utility connections in port –
Part 1: High Voltage Shore Connection (HVSC) Systems – General requirements

- All OPS systems must follow the standard
- Plugs, safety, communication and power capacity
- Benefits proven in Norway
- Facilities for cruise must be 16MVA to 20MVA
- Include future charging of cruise vessels

PowerCon

Shore Power – Enviromental benefits

- Cheapest way to reduce emissions
- Electricity will become zero/low emission in all countries
- Removes all exhaust types
- Removes noise/vibrations from engines

Shore Power – Economic Benefits

- Fuel, Crew, Engine maintenance
- Surprising extra savings
- Cleaner fuels improves economy for shore power !

PowerCon

Shore Power – How can it Thrive

- European tax exemption for shore-side electricity
- Price of electricity should never exceed the price of diesel
(Preferably fuel cost should include environmental damage)
- Shore Power needs a stable and predictable investment environment
- Utility Companies should embrace Shore Power

Hydro Powered By Nature

Shore Power – Tendering

- There are standard solutions
- Make design competition to find best value
- Reduced planning cost – more bang for the buck!

PowerCon

Shore Power – Make the Changes Now

- Shore power can be built in less than one year
- Focus on near future wins and adapt solution later
- Look for solutions that can be adapted and scaled, like mobile solutions
