Restrictions
As from 10 June, Slovakia has started classifying third countries on the grounds of safety risks.

Individuals travelling to Slovakia, who in the previous 14 days have visited a country that is not considered to be safe, must provide proof of a negative test result not older than 96 hours upon arrival at the border.

In cases where individuals enter Slovakia from an unmanned border crossing point, they must immediately submit proof of a negative test to the competent Regional Public Health Authority (in English, German, Czech or Slovak). They must then self-isolate at home and repeat the test on the 5th day of isolation at the earliest. Isolation lasts until the result of the test is negative.

International goods transport drivers remain exempted from any provision.

More information can be found here.

Relieves
No traffic bans have generally been lifted, decisions are made on a case-by-case basis.

As from 11 June, Slovakia has opened all border crossing points with neighbouring countries, with the exception of Poland. On the Slovakia-Poland border, controls will be carried out until 26 June, and the only open crossing points are Trstená-Chyžné and Vyšný Komárnik-Barwinek.
