

ITF Gender Analysis Toolkit for Transport

THE GENDER QUESTIONNAIRE

A template for surveys on gender policies and gender data in transport

Knowing what gender-related policies are in place and which gender-relevant data exist is the first step toward developing gender-neutral transport policies and projects. Assessing the state of affairs early on will enable you to plan for the targeted collection and analysis of relevant information for the project. This survey template simplifies your stocktaking of existing policy initiatives, data gathering practices and policy tools used to integrate a gender perspective into transport projects and policies. Use the tool below to analyse your transport policy.

1. Does your country have a national gender strategy?

Yes

No *Skip to question 7*
