

22nd Session of the Conference of the Parties to the United Nations Framework Convention on Climate Change (COP22)

UNFCCC Official Side Event

Charting Pathways to Decarbonise Transport

Friday, 11 November 2016, 13:15 – 14:45

Room Bering, Blue Zone, Bab Ighli, Marrakesh

In order to successfully decarbonise the transport sector, challenges in all transport modes must be addressed. This event will focus on developing new pathways and closing the gaps between national commitments and delivery on climate mitigation for different transport modes, such as rail, road, aviation, and shipping. Success factors and actions required to move from concept to implementation on the decarbonisation of transport by 2050 will be discussed.

Moderator:

Mary Crass, Head of Institutional Relations, International Transport Forum (ITF)

Speakers and Panellists:

- José Viegas, Secretary General, International Transport Forum (ITF)
- Alain Flausch, Secretary General, International Association of Public Transport (UITP)
- Jean-Pierre Loubinoux, Director General, International Union of Railways (UIC)
