

2023 Summit: Transport Enabling Sustainable Economies

24-26 May, Leipzig, Germany

Under the Presidency of the United Kingdom

Summit theme trilogy 2022-2024

Transport Innovation Serving Societies:

- Transport for Inclusive Societies (2022)
 - Transport Enabling Sustainable Economies (2023)
 - Transport in Harmony with the Environment (2024)
- 

Sustainable economies

- Sustainable development means balancing the three mutually dependent pillars of sustainability: economy, environment and society.
- Sustainable economies aim to increase prosperity while fostering social cohesion and inclusion, and environmental sustainability.

Transport Enabling Sustainable Economies

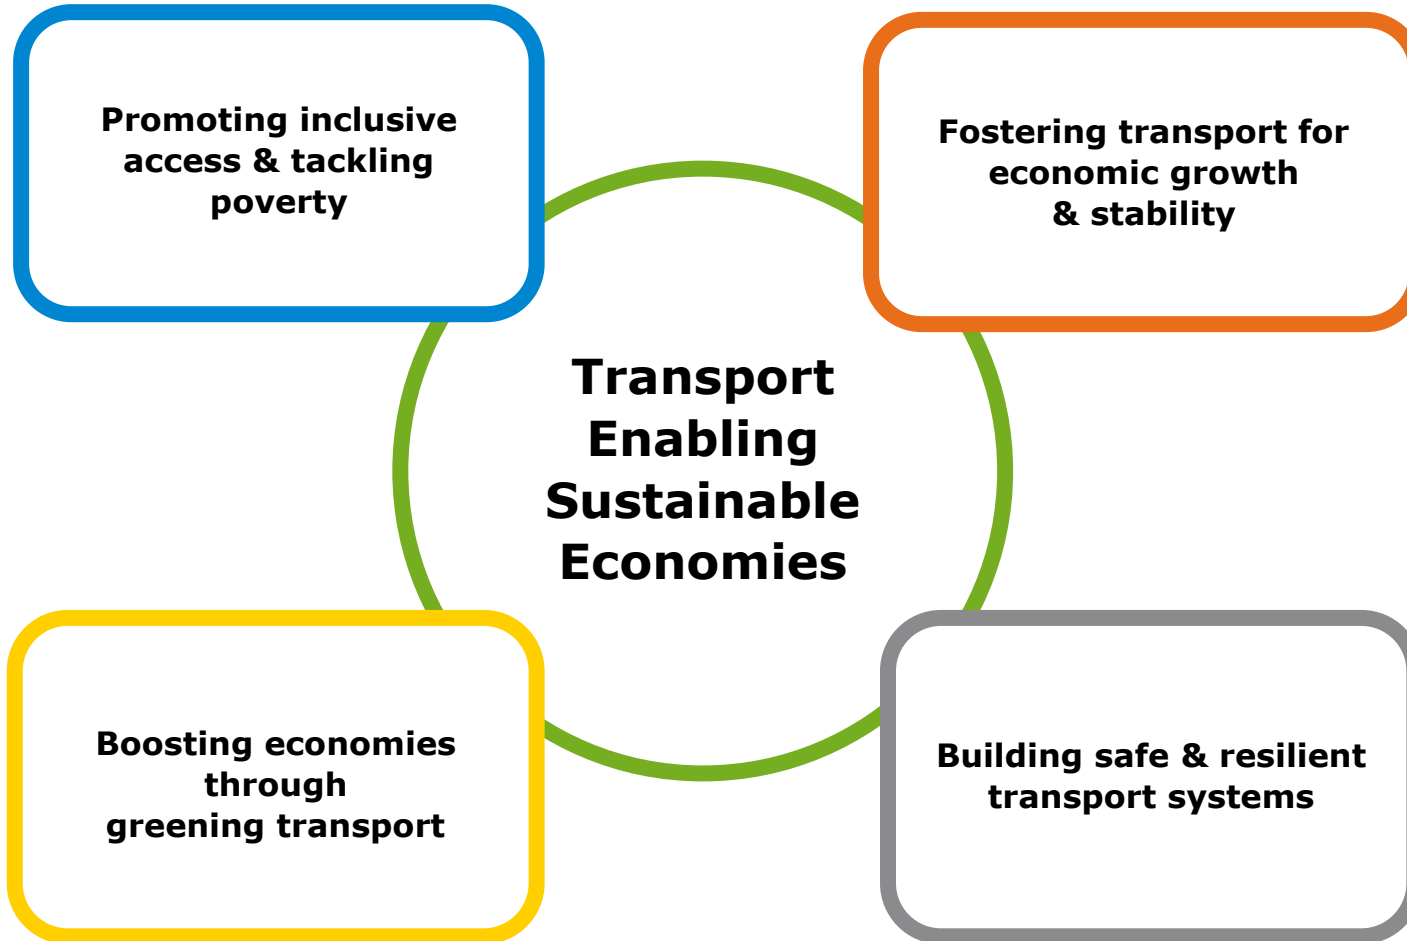

Role of transport as an enabler of economic growth while serving as a vector for social and environmental sustainability:

- Enhancing social welfare, providing benefits to society and promoting inclusion.
- Minimising externalities such as traffic congestion, air and maritime pollution, and road crashes.

Context: global trends and challenges

- Geopolitical crisis and risks of global fragmentation
- Climate change and biodiversity loss
- Energy crisis
- Uneven Covid-19 pandemic recovery
- Uncertain economic outlook
- Growing inequality

2023 Summit programme

- **Dimensions**

GLOBAL

REGIONAL

NATIONAL

LOCAL

- **All modes of transport**
- **Innovation as a cross-cutting theme**
